## Language and Culture for the Community

### What is LEXNC?

Language Exchange of Northern Colorado LLC, is the region's premier world language and culture school offering instruction in a wide variety of languages for all ages. It is the first school of its kind in Northern Colorado and is leading the way in foreign language instruction.

It all began in 2005 with Dannielle North-DeCunto, a community Spanish teacher. It was evident how great the need and enthusiasm for foreign language and intercultural activities was within Fort Collins; So Dannielle, along with her sister and brother-in-law (both recent residents and instructors in Japan) began the school with instruction in Spanish, Japanese and English. Within nine months the list had grown to 13 languages!

LEXNC has always grown with the needs of the community. In fact, most of the programs you see today were inspired by local residents seeking resources. From classes for adoptive families to the adult immersion camps, Language Exchange of Northern Colorado is here to serve the community. You can find the highest quality of authentic language instruction and real-life cultural experiences without ever leaving the city. Browse our programs, we know that you can find a class to fit your learning style and interest and if not, we'll help you to create it!

### Our Instructors

From the very beginning it has been the goal to offer our students not only language instruction, but real-life, personal relationships with people from around the globe. This is why, when you take a language class at LEXNC you learn so much more. Each instructor at Language Exchange is a native-speaking representative of their country. They bring to you a lifetime of pride and passion and the desire to share the best of their heritage and homeland. When you finish a course at Language Exchange you leave with a
